One of our vulnerable pupils was nominated as a school council member. (22-23 - no pupils)

Workshops, day trips and residentials

To formalise which parents needed financial support, we send a form for parents to confirm how much they could afford towards the residential, and have personalised payment plans for them to spread the cost over the school year. The advantage of this is that we know how much support we need to offer parents, and it is reassuring for those parents who are struggling financially to have an agreement in place. A summary of actual support costs will be finalised in September 2024.
